

How Does It Work?

Data-only / Data+SMS / Data+SMS+Voice plans available
 Choose from unmetered or metered (5GB) data download/upload

Suitable for mobile hotspots and SIM-free smartphones
 Mobile hotspot devices are available for purchase/rental
 A list of tested SIM-free devices are available on our website

4G/LTE broadband connection on NTT Docomo's mobile network
 Economic network connection by Freebit/Bekkoame Internet

Base fee of first month is free. SMS/calling charges apply separately.
 Base fee is charged on the 1st of the month of use.
 SMS/calling charges are billed two months after the month of use.

What Is "Unmetered SIM"?

Data usage is "unmetered" – the monthly data usage (DL/UL) is not accounted for.
 If the accumulated total of data usage within 3 days exceeds a limit of 3GB, a bandwidth capping will take effect and maximum speed will be dropped to 200kbps for 24 hours. The capping will be lifted automatically after 24 hours.

*With the metered plan, after exceeding 5GB your connection speed will be slowed down to 200kbps until the end of the calendar month.
